- Board of Orthodontics, 61, 152, 216, 558, 719, 805, 888, 961
- Dental Association, 75, 154, 556, 807, 968
- Anchorage and mandibular arch, 688
- immediate space retention and, 350
- orthodontic, 858
- some thoughts about, 324
- Andresen method of orthodontic treatment, principle of, discussion based on cephalometric x-ray analysis of treated cases, 437
- Ankylosed teeth, 28
- Appliance for moving lingually erupted maxillary incisors to normal position, in treatment procedures of simple form which have proved their worth, 181
- Universal, Erikson's technique with, 727
- Appliances, systems of, 597

- Arch length, studies of, through transition period, 148 (Abst.)
- mandibular, anchorage and, 688
- mechanism, edgewise, development of, and its place in contemporary orthodontics, 670
- widths, deciduous dental, and widths of face in early childhood, 698
- dental, and widths of face and head, relationships between, 193
- Arches, dental, widths of, and bigonial and bizygomatic dimensions at certain ages, 149 (Abst.)
- human lower dental, longitudinal study of changes in arch form and length in, 148 (Abst.)
- Articulation, dental and labial, sense of, in orthodontic treatment, 565
- Athetoid child, spastic or, dental problem of, 129
- Atkinson skull collection, 644
- Spencer, R., 234

B

- Band construction, molar, in chrome alloy in orthodontics, 791
- Birth to 12 years of age, serial study of good occlusion from, 481
- Bite plate as adjunct to orthodontic therapy, 524

C

- Central Section of American Association of Orthodontists, 66, 152, 645, 720, 889
 - president's address, 321
- Cephalometric appraisal of Class II, Division 1 malocclusion treated with twin arch mechanism, 286
- appraisals, application of, to orthodontic diagnosis and treatment, 244
- laminagraphy, variations of temporomandibular joint and associated structures as revealed by, 147 (Abst.)
- radiographic study of facial profile, 312 (Abst.)
- radiographs, statistical analysis of cranial and facial dimension in frontal planes using, 227 (Abst.)
- roentgenographic study, comparative, of facial pattern in individuals with malocclusion and with excellent occlusion of teeth, 310 (Abst.)
- x-ray analysis of treated cases, discussion based on; principle of Andresen method of orthodontic treatment, 437

- Cephalometry, craniometry and, as research tools in growth of head and face, 406
 photography and, in daily orthodontic practice, 929
- Certification, orthodontic education, and licensure, 376
- Child, spastic or athetoid, dental problem of, 129
- Childhood, early, deciduous dental arch widths and widths of face in, 698
- Children, development and behaviour of, 712 (Abst.)
 four to eight years of age, body size norms for, 548 (Abst.)
- Chrome alloy in orthodontics, 779
- Cincinnati Dental Society, 965
- Cleft palate, congenital, orthodontic procedures in treatment of, 58 (Abst.)
 patient, rehabilitation of, 611
 Rehabilitation, American Association for, 236
- Cleido cranial dysostosis in four siblings, 584
- Community orthodontic service, 188
- Condyle, mandibular, investigation of position of, and its interpretation from temporomandibular joint radiographs, 277
- Condylectomy, cephalometric study of growth of mandible in rat following, 308 (Abst.)
- Conservation, nutrition and, 1
- Convention planning committee, American Association of Orthodontists, 1951, report of, 798
- Courses, graduate, postgraduate, and refresher, summary of, offered by accredited dental schools of United States and by Army and Navy Departments, 1950-1951, 415
